# DETAILED ACTION

## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Bagarazzi on 11/5/2009.

The application has been amended as follows:

- Please cancel claim 4
- On line 2 of claim 16, please replace "valve lip" with --lip valve--.

The following is an examiner's statement of reasons for allowance: The prior art made of record did not disclose or render obvious a device comprising the combination of limitations recited in claims 1 and 18. The closest prior art, US 5,545,179 to Williamson, did not disclose a device including an inner wall with a greater wall thickness than the outer wall as is recited in claim 1 or a device comprising the recited clamping closure as is recited in claim 18. The inner wall of Williamson is the same thickness as the outer wall and there is no motivation to modify the device to meet this limitation. Furthermore, Williamson does not include any clamping closure and there is no motivation to modify the device to meet this limitation.

Application/Control Number: 10/545,191
